## SUMMARY

---

Innovative MERN Stack Developer with 2+ years of experience building AI-powered, healthcare, and SaaS-based web applications. Skilled in React.js, Node.js, Express.js, and MongoDB, with a strong focus on creating scalable, secure, and high-performance solutions. Proven expertise in developing platforms such as astrology systems, medicine management dashboards, AI meal and workout planners, donation-based apps, and matrimonial web apps. Passionate about delivering intuitive UI/UX, seamless API integrations, and responsive designs that enhance business efficiency and user engagement.

## WORK EXPERIENCE

---

### Backend Developer, Digital Dezire Web Solutions, Delhi, India

Sep 2023 – Present

- Developing and maintaining scalable full-stack web and mobile applications for diverse industries including healthcare, fitness, and SaaS.
- Building secure RESTful APIs, integrating third-party services, and ensuring optimized MongoDB queries.
- Collaborating with UI/UX teams to deliver pixel-perfect, responsive interfaces using React.js and Tailwind CSS.
- Deploying and maintaining production environments using Hostinger VPS, Vercel, and Render.

### Frontend Developer, Stormtec Global Solution, Kolkata, India

Aug 2022 - May 2023

- Designed and developed a responsive e-commerce platform, achieving a 30% improvement in user engagement.
- Integrated UI components with REST API responses and optimized performance by 20%.
- Ensured cross-browser compatibility and improved page load experience.
- Collaborated with product team for UI flows and UX improvements.

## PROJECTS

---

### Sadaqah App India (in progress)

- Designing a donation-based mobile web app with real-time transaction tracking, secure payments, and community contribution features.

### Nikha-e-Muslim Web App (in progress)

- Building a MERN-based matrimonial platform with chat functionality, profile verification, and intelligent match suggestions.

### Astrology Web App

- Implemented horoscope prediction modules, admin dashboards, and secure payment integrations for a modern astrology platform. Integrated API-based astrology data and ensured real-time updates.

### Rackon Biotech

- Developed a full-featured medicine management web app for product handling, purchase and sales entries, and inventory control using a dynamic CMS backend. Enhanced efficiency for internal operations.

### FeastIQ (AI Meal & Workout Planner) (in progress)

- Created an AI-powered meal and workout planning web app using Gemini API. The platform generates personalized diet and exercise plans, calculates BMI, and tracks progress with secure user authentication.

## Zestrine View

- Developed a doctor portfolio website for professionals to showcase their offline presentations and photographs. Focused on responsive UI and SEO optimization for visibility and performance.

## E-commerce Website (Byit.in)

- Developed a responsive e-commerce platform implementing dynamic product listings, secure checkout, and integrated payment APIs using React.js and Node.js.

## Dynamic Websites Development

- Globalmultilingua Services: Designed and developed a dynamic multilingual website with CMS, blog, and service management.
- Lewis and Clerk: Created an interactive tourism website with backend logic for tour and blog management.

## Static Website Development

- Designed and developed 50+ static websites for real estate, services, and travel industries, improving online presence and client outreach.

## EDUCATION

---

### Bachelor of Computer Application (BCA)

2021 - 2024

George Group of College (MAKAUT), Kolkata, India

- CGPA: 7.49

### Higher Secondary Education

2019 - 2021

B.N College (BSEB), Bhagalpur, India

- Percentage: 55% (Physics, Chemistry, Maths)

### Secondary Education

2019

St. Teresa's School, Bhagalpur, India (ICSE)

- Percentage: 75% (Computer)

## TECHNICAL SKILLS

---

### Frontend Development

- HTML5, CSS3, JavaScript, React.js, Redux, Bootstrap, Tailwind

### Backend Development

- Node.js, Express.js, REST API Development

### Database Management

- MongoDB, Mongoose, Postman

### Version Control

- Git, GitHub

### Tools & Design

- Figma, Canva

### Other Skills

- Deployment (Vercel, Netlify, Hostinger(VPS), Render)
